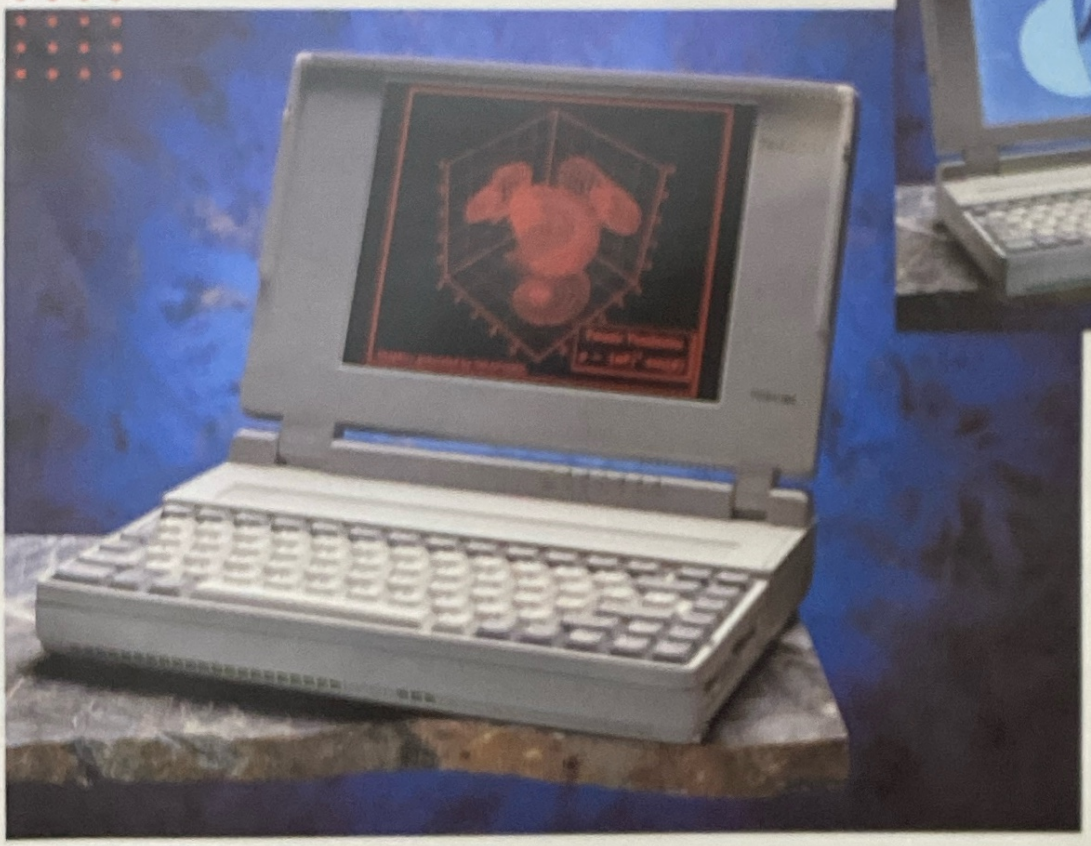
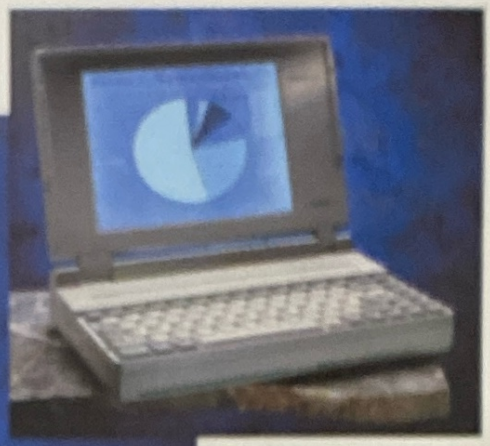
T4400SX

TOSHIBA

Notebook Personal Computer





The Freedom
to go Anywhere
and the Power
to go Far

- Intel 486SX processor at 25Mhz
- VGA Gas Plasma or SideLit LCD display
- Weighs only 7.5lbs
- 2Mb RAM standard expandable to 10Mb
- Internal 3.5", 1.44Mb diskette drive, 80Mb hard drive
- 3 hour battery life

T4400SX

Notebook Personal Computer

The Toshiba T4400SX notebook computer delivers desktop power and brilliant graphics-capable displays, combined with light weight and small size, like no other computer before it.

The T4400SX has a powerful 25MHz i486SX microprocessor. A large and very fast 80Mb hard drive. And a choice of two large breathtaking displays – gas plasma or LCD. All in a tremendously small and rugged design that weighs little more than seven pounds and runs on battery power for at least three hours.

The T4400SX's optional VGA gas plasma display is an industry first, offering a 16-level grey scale for users who require quicker screen redraws for graphics-intensive applications. The standard black and white LCD screen, often preferred by business and professional users, offers 64 grey scales for those who demand this capability.

Toshiba continues to incorporate an array of unique productivity features into its newest computers, and the T4400SX features a carbon fibre reinforced plastic case, credit card-size memory expansion, AutoResume (Toshiba's electronic bookmark), and Toshiba's highly regarded full-function, standard key-spaced keyboard. A custom clip is also included to accommodate a Microsoft Ball Point mouse.

All industry-standard ports are built-in, including a 150-pin expansion port to connect to Toshiba's recently announced Desk Station IV expansion device. Toshiba has even built-in a password protection system.

The T4400SX will appeal to users who, quite simply, require true 486 processing power. It functions equally well in or out of the office for engineers, industrial/technical professionals, and mobile professionals with high speed graphics requirements, processor-intensive applications, and powerful Windows processing demands. It's a notebook computer that truly rivals – and promises to replace – traditional desktop computers.

SPECIFICATIONS

Processor
Intel 486SX processor running at 25MHz
8Kb cache in CPU
Upgradable to 25MHz Intel 486DX
Real time clock/calendar with battery backup

Disk Drives
Built-in 80Mb hard disk drive with 19ms average access time
Internal 3.5", 1.44Mb slim line diskette drive

Memory
2Mb RAM expandable to 10Mb with user installable 'credit card' memory

Display
640 x 480 VGA resolution
Dimensions: 7.56"W x 5.7"H (9.5" diagonally)
Choice of:
- gas plasma display with 16 grey scales, featuring simultaneous external monitor use
- page white cold cathode fluorescent sidelit LCD with 64 grey scales

Keyboard
Full-function 82-key keyboard
12 function keys
8 dedicated cursor keys
Quiet keyboard
Custom clip for optional Microsoft Ball Point Mouse

Software
MS-DOS 5.0 operating system
Built-in password security system

Dimensions
11.7"W x 2.2"H x 8.3"D
7.5 lbs (with battery)

For enhanced productivity connect the T4400SX to Toshiba Desk Station IV

Standard Interfaces
Parallel printer/external 5.25" FDD port
RS-232C serial port
VGA colour monitor port (15-pin analog)
150-pin DeskStation IV expansion unit port
PS/2 mouse port
Numeric keypad port
Dedicated modem slot

Power
Removable, rechargeable Ni-Cad battery pack
1 battery standard @ 3 hours real usage
Universal AC adapter/recharger quick charges battery in 1.5 hours

Battery Conservation Features
Low battery light with audible tone
Auto hard disk on/off
Auto modem on/off
Auto display on/off
CPU Sleep mode

Special Features
Toshiba Auto Resume Mode
System Reset Switch
7 LED lights to give full power and keyboard information

Options
Internal 2, 4 or 8Mb RAM 'credit card' memory
Internal 2400 baud error correcting modem (MNP5)
Internal 9600/2400 baud fax/modem
External 5.25", 360Kb diskette drive
Additional battery pack(s)
17-key numeric keypad
101-key keyboard adapter
Carrying case (in leather or nylon)
Extra universal AC Adapter
DeskStation IV expansion unit
OS/2 V1.2

International Limited Warranty
One year Toshiba International Warranty parts and labour through authorized Pro Care Centres
